DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claims 1-4 and 7-22 are allowed over prior art of record because the cited references either alone or combined do not disclose the claimed invention:

A method of detecting a filter change in an engine, comprising step of:

determining an average time for a fluid pressure in the engine to reach a

predetermined level following startup of the engine; detecting an amount of time for the

fluid pressure to reach the predetermined level; and resetting a fluid life monitoring

system if the amount of time for the fluid pressure to reach a predetermined level varies

from the average time by a predetermined amount.

The underline limitations are critical since it shows the system and method of improvement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
